Since its inception in 1950, through its worldwide research program MDA has been leading the effort to find treatments and cures for all forms of muscular dystrophy. We're extremely grateful to Reps. Engel and Burgess for their leadership in introducing the Paul D. Wellstone MD CARE Act Reauthorization in the House of Representatives. This is an historic step along the path of finally realizing the dream of ridding the world of diseases that devastate the lives of tens of thousands of Americans. MDA pledges to continue to work tirelessly to ensure that this vital legislation is enacted.

A handwritten signature in black ink that reads "Jerry Lewis". The signature is fluid and cursive, with a large loop at the beginning and a long, sweeping tail.

Jerry Lewis
National Chairman
